

AGRI INNOVATION CONCLAVE

The Indian Council of Agricultural Research (ICAR) has initiated the National Agricultural Innovation Project (NAIP), which accords high priority to generation and transfer of agricultural technologies, and suggests innovations in the technology system. NAIP is funded by World Bank and over a period of last 6 years it has funded more than 200 projects under four major components on PPP mode. NAIP has developed innovative successful processes, systems and technologies. The Agri Innovation Conclave is a culmination of the overall success and the outcomes of NAIP.

The primary objective of this Conclave is to bring together agribusiness experts, professionals, and other stakeholders from across the country, on a common platform to share NAIP's success and conceive path breaking ideas for strengthening the future of agribusiness in the country.

Round table sessions including that of Secretarial level, Industrial level, Multi – Lateral and Foundations level will deliberate on the future path way for NAIP successful processes, systems and technologies and develop road map for their implementation with key stakeholders. The Conclave will be an arena where key policy makers, diplomats, eminent agribusiness experts and thought-leaders will discuss on scaling-up and partnership opportunities of various NAIP's projects.

The Conclave also seeks to bring together farmers from the Krishi Parivartan Yatra, who will share their inspirational stories which have made a difference on the ground. It will also reward the champions of the Agri Biz Idol Camp among the participants and the press.
